This is in response to the petition under 37 CFR 1.47(a), filed December 26, 2001 (certificate of mailing date December 12, 2001).

The petition is granted.

Petitioner has shown that the non-signing inventor has refused to join in the filing of the above-identified application after having been presented with the application papers. Specifically, in a statement of facts of patent attorney William K. Baxter, rule 47 applicant details the presentation of the application papers (specification, claims, drawings and declaration) via Electronic Mail (E-mail) to non-signing inventor Kryloff, and the inventor's subsequent refusal by return E-mail. In support thereof, rule 47 applicant submits documentary evidence in the form of a response E-mail from the non-signing inventor, in which, the inventor states that he will not join in the filing of the application. The text of the non-signing inventor's response E-mail supports a conclusion that the inventor has been apprised of the application to which the oath or declaration is directed. Accordingly, it is concluded that rule 47 applicant has submitted adequate proof that the non-signing inventor has refused to join in this application after having been presented with the application papers. Petitioner has submitted a declaration in compliance with 37 CFR 1.63 and 1.64.

This application and papers have been reviewed and found in compliance with 37 CFR 1.47(a). This application is hereby accorded Rule 1.47(a) status.

As provided in Rule 1.47(c), this Office will forward notice of this application's filing to the non-signing inventor at the address given in the petition. Notice of the filing of this application will also be published in the Official Gazette.

This file is being forwarded to Technology Center 2100 for examination in due course.

Telephone inquiries should be directed to the undersigned at (703) 308-6712.
